

## **Sunora Foods Launches MCT Oil for Cannabis Industry**

September 10, 2019 – CALGARY, ALBERTA. **Sunora Foods Inc.** (the “**Corporation**”) (TSX-V: SNF) announces it has received its initial delivery of Medium Chain Triglyceride Oil or commonly referred to as MCT Oil for use in the Cannabis / Hemp Industry as a carrier oil. Sunora’s MCT Oil is available at its Calgary distribution facility and is available for next day shipment.

Sunora’s MCT Oil is produced from coconuts using a cold press extraction process. Independent testing of our MCT Oil has shown a 99.8% C8:0 (Caprylic acid) and C10:0 (Capric acid) content. All MCT Oil meets or exceeds the highest quality standards implemented by Sunora throughout its 30+ years of operations.

Cannabis and hemp edibles, tinctures and elixirs generally require a stable carrier oil that allows for increased absorption of cannabinoids. MCT Oil is also used for weight loss benefits and supports ketogenic and low-carb diets.

For additional information on purchasing Sunora MCT Oil please contact:
